

Illinois Solar for All
A STATE PROGRAM

Electric Bill Savings You Can Count On

Illinois Solar for All is a state program that ensures income-eligible households and residents will save money on their electric bills with solar.

Take Advantage of the Multiple Benefits

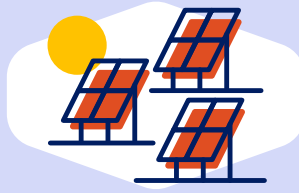

- **Lower electric bills!** Savings are required by the program.
- The program ensures that participants **save on electricity costs** by providing incentives to approved solar companies, called Approved Vendors.
- **You're protected.** We require our Approved Vendors to follow clear requirements, transparent pricing, and fair practices to ensure you're protected!

Options to Save on Your Electric Bills

Residential Solar

Homeowners and multifamily building owners can save by installing solar panels directly on their property.

Community Solar

Homeowners and renters can save by subscribing without installing solar panels.

Non-Profit and Public Facilities

Leaders and administrators can help their **organizations** save by installing solar panels.

Find Out If You Are Eligible

The program's eligibility is determined by the county you live in, the number of people in your household, and your household income. Use the eligibility tool on the ILSFA website or talk with a program specialist to determine your eligibility. You might be surprised to learn you qualify!
